

Message to the Morgan Creek Community 3/31/20

As we move into April and another month of uncertainty with the global Covid-19 virus pandemic, your Board wants to continue outreach and communication throughout the Morgan Creek community. We all share in the struggles associated with the threat to our health, our families and the economy. Times of crisis also provide opportunities to come together and show a sense of compassion and care for our neighbors. It has been said that simple acts of selfless caring go a long way toward our long-term recovery. It has been heartening to hear stories from residents reaching out to and assisting neighbors in a variety of ways. Our management team is following the Governor's directive to work from home. Angie and Kerri have been very active assisting residents and the board on a variety of issues.

The Board, like all of you, is trying to reinvent ways to communicate during the period of self-isolation. **We want to encourage everyone to monitor our Town Square site. If you haven't signed up or know neighbors who have not done so, please encourage them to sign up. (*Instructions Attached*) It's our one Morgan Creek HOA specific link to ensure everyone receives timely and accurate information from the Board and management team. We will also be posting notices on our bulletin boards throughout the community for those who are out walking.**

This is the time for us to remember the true definition of a community: People helping people. Let's encourage each other to keep our sense of humor while we practice social distancing and wash our hands at least thirty times a day!

Morgan Creek HOA Board of Directors
